Due to recent expansion in our IT area, we require the Intermediate systems Analyst to have experience with the following technologies: **VB.Net, SQL server and ERP software**. As a programmer-analyst, you will be working on multiple projects. You will support the development, quality assurance, and implementation of new applications and improvements. Experience within manufacturing is a definite asset.

**RESPONSIBILITIES**
- Development and maintenance of company software applications and databases
- Ensure best possible performance, quality and responsiveness of applications
- Provide ERP and other software support to end users
- Test and validation of software, implementation, user training
- Write and maintain user documentation
- Assist with software evaluation
- Other duties as assigned

**QUALIFICATIONS**
- Bachelor’s degree or college diploma in related technical field, or equivalent combination of education and experience
- Minimum of 2 year’s system analysis experience
- Experience in a manufacturing setting an asset
- Knowledge of the system development lifecycle (SDLC)
- Proficient with VB.Net and strong knowledge of .Net framework
- Strong understanding of object-oriented programming
- SQL Server 2008 and later versions including SSRS
- Microsoft Certification would be desired
- CNC programming would be an asset
- Exceptional interpersonal and communication skills

Interested candidates are encouraged to submit a cover letter and a salary expectation along with a resume no later than:

**FRIDAY, OCTOBER 27, 2017**
Please forward your resume to us by email, mail or fax, Attention: Human Resources
Email: jobs@defehr.com
Mail: DeFehr Furniture. 125 Furniture Park, Winnipeg, MB R2G 1B9
Fax: (204) 663-4458

The successful candidate will be subject to a security background check as a condition of employment.

We wish to thank all applicants in advance for their interest, however, only those applicants considered will be contacted.
